# Subject Index

## A

**Abdominal mass, pseudo-obstruction**
pseudo-obstruction of the inferior vena cava in pediatric abdominal masses. Kadir, S., O'Neill, J.A., Jr., p. 25
**Adenoma, benign**
massive nonfunctioning adrenal cortical adenoma: complementary roles of computed tomography (CT) and angiography in the diagnosis. Kuribayashi, S., Harrington, D.P., Peterson, L.M., p. 271
**Aneurysm/Aneurysms, aortic**
unusual manifestations of aortic dissection. Glanz, S., Gordon, D.H., Shah, N., Jaffe, B., Griepp, R., p. 292
**Aneurysm/Aneurysms, dissecting**
angiographic diagnosis of aorto-right atrial fistula from acute dissecting aneurysm of the ascending aorta. Taylor, J.L., Elliott, L.P., Karp, R.B., Kraft, L., p. 5
**Aneurysm/Aneurysms, posttraumatic**
multiloculated chronic posttraumatic aneurysm of the thoracic aorta with late acute rupture. Livoni, J.P., Bogren, H.G., p. 227
**Aneurysm/Aneurysms, transverse**
embolization of bleeding transverse pancreatic artery aneurysms. Knight, R.W., Kadir, S., White, R.I., Jr., p. 37
**Aneurysm/Aneurysms, venous**
peripheral venous aneurysms with recurrent pulmonary embolism: report of a case and review of the literature. Greenwood, L.H., Yrizarry, J.M., Hallett, J.W., Jr., p. 43
**Angina pectoris**
clinical correlates of the coronary arteriogram. Hamby, R.I., p. 124
**Angiography**
angiographic and computed tomographic appearance of secondary carcinoid of the liver. Sako, M., Lunderquist, A., Owman, T., Mårtensson, H., Nobin, A., p. 90
angiographic control of renal artery stenoses 6 months following percutaneous transluminal angioplasty. Ingrisch, H., Hegele, T., Frey, K.W., p. 249
angiographic diagnosis of aorto-right atrial fistula from acute dissecting aneurysm of the ascending aorta. Taylor, J.L., Elliott, L.P., Karp, R.B., Kraft, L., p. 5
angiography of nonneoplastic retroperitoneal masses. Lois, J.F., Levin, D.C., Hooshmand, I., p. 312
coagulative interventions during angiography. Bookstein, J.J., Moser, K.M., Hougie, C., p. 46
massive nonfunctioning adrenal cortical adenoma: complementary roles of computed tomography (CT) and angiography in the diagnosis. Kuribayashi, S., Harrington, D.P., Peterson, L.M., p. 271
percutaneous removal of intravascular foreign bodies. Rubinstein, Z.J., Morag, B., Itzchak, Y., p. 64
the role of pararenal collaterals in assessing renal artery stenosis before and after percutaneous transluminal angioplasty. Heeney, D.J., Bookstein, J.J., Carey, P.H., Rapoport, S., p. 71
spontaneous arteriovenous fistula between common iliac artery and vein. Wills, J.S., Herrera, L., Kester, R., p. 246
unusual manifestations of aortic dissection. Glanz, S., Gordon, D.H., Shah, N., Jaffe, B., Griepp, R., p. 292
**Angiography, adrenal**
selective adrenal angiography: a study of adrenal and related arteries in normal and pathological conditions. Madsen, B. (ed); reviewed by Zeitler, E., p. 119
**Angiography, complications**
(technical note) prevention of embolization of a catheter fragment to the lower extremity by compression of the femoral artery. Gordon, D.H., Glanz, S., Sclafani, S.J.A., p. 117
transvascular retrieval of an accidentally ejected tip occluder and wire. Fjälling, M., List, A.R., p. 34
**Angiography, diagnosis of islet cell tumor**
glucagonoma and its angiographic diagnosis. Wawrukiewicz, A.S., Rösch, J., Keller, F.S., Lieberman, D.A., p. 318
**Angiography, extremities**
(technical note) prevention of embolization of a catheter fragment to the lower extremity by compression of the femoral artery. Gordon, D.H., Glanz, S., Sclafani, S.J.A., p. 117
**Angiography, indications**
leiomyosarcoma of the kidney: report of two cases with common angiographic findings. Selli, C., Stefani, P., Carcangiu, M.L., Turini, D., p. 275
**Angiography, pediatric**
pediatric angiography. Stanley, P., Miller, J.H.; reviewed by Fellows, K.E., p. 282
**Angiography, peripheral**
Iopamidol, a new nonionic contrast medium in peripheral angiography. Kallehauge, H.E., Præstholm, J., p. 325
**Angiography, posttraumatic**
multiloculated chronic posttraumatic aneurysm of the thoracic aorta with late acute rupture. Livoni, J.P., Bogren, H.G., p. 227
**Angiography, pulmonary**
pulmonary arteriography: the importance of multiple projections. Bossart, P.J., Sniderman, K.W., Beinart, C., Saddekni, S., Sos, T.A., p. 105
**Angioplasty, limb salvage**
a case report of percutaneous transluminal angioplasty following failure of femoro-popliteal venous bypass graft. Baxi, R.K., p. 30
**Angioplasty, percutaneous transluminal**
See Percutaneous transluminal angioplasty
**Anticoagulation**
coagulative interventions during angiography. Bookstein, J.J., Moser, K.M., Hougie, C., p. 46
**Aorta**
See Heart
**Aorta, dissection**
computed tomography versus aortography in diagnosis of aortic dissection. Parienty, R.A., Couffinhal, J.-C., Wellers, M., Farge, C., Pradel, J., Dologna, M., p. 285
unusual manifestations of aortic dissection. Glanz, S., Gordon, D.H., Shah, N., Jaffe, B., Griepp, R., p. 292
**Aortic arch, right**
right aortic arch and isolation of the left innominate artery from the aorta. Garti, I.J., Aygen, M.M., p. 235
**Aortic rupture**
multiloculated chronic posttraumatic aneurysm of the thoracic aorta with late acute rupture. Livoni, J.P., Bogren, H.G., p. 227
**Aortic stenosis**
new catheter for retrograde left heart catheterization in aortic stenosis. Purzycki, Z., p. 230

**Aortic valve, repair**
angiographic diagnosis of aorto-right atrial fistula from acute dissecting aneurysm of the ascending aorta. Taylor, J.L., Elliott, L.P., Karp, R.B., Kraft, L., p. 5
**Aortocoronary bypass grafts**
See Coronary artery bypass grafts
**Aortography**
angiographic evaluation of the ductus diverticulum. Goodman, P.C., Jeffrey, R.B., Minagi, H., Federle, M.P., Thomas, A.N., p. 1
**Aortography, aortic dissection**
computed tomography versus aortography in diagnosis of aortic dissection, Parienty, R.A., Couffinhal, J.-C., Wellers, M., Farge, C., Pradel, J., Dologa, M., p. 285
**Arterial anastomoses, bronchial-pulmonary**
bronchial arteries to right pulmonary artery anastomoses in right pulmonary vein atresia. Johnson J.F., Juris, A.L., Barnes, E.V., p. 238
**Arterial spasm**
functional alterations in the coronary circulation as mirrored in the angiogram. Paulin, S., p. 177
**Arterial stenosis**
See Arterial spasm
**Arteries**
See under individual names
**Arteries, coronary**
successful streptokinase treatment of a thrombosed, ectopic coronary artery: a case report. Als, A.V., Malagold, M., Markis, J.E., Paulin, S., p. 197
**Arteries, encasement**
renal arterial encasement: an unusual cause. Wagner, E.J., Cisternino, S.J., Young, J.D., Jr., p. 87
**Arteries, femoral**
a case report of percutaneous transluminal angioplasty following failure of femoro-popliteal venous bypass graft. Baxi, R.K., p. 30
**Arteries, fistula**
See also Fistula, arteriovenous
spontaneous arteriovenous fistula between common iliac artery and vein. Wills, J.S., Herrera, L., Kester, R., p. 246
**Arteries, iliac**
See Arteries, fistula
**Arteries, popliteal**
See Arteries, femoral
**Arteriography**
the role of pararenal collaterals in assessing renal artery stenosis before and after percutaneous transluminal angioplasty. Heeney, D.J., Bookstein, J.J., Carey, P.H., Rapoport, S., p. 71
**Arteriography, mesenteric**
nonocclusive intestinal ischemia treated with intraarterial infusion of prostaglandin $E_1$. Tyler, G., Clark, R.A., Jacobsen, E.D., p. 16
**Arteriography, renal**
renal arterial encasement: an unusual cause. Wagner, E.J., Cisternino, S.J., Young, J.D., Jr. p. 87
**Arteriography, technique**
translumbar selective coronary arteriography. Maxwell, D.D., March, H.B., Mispireta, L.A., p. 157
**Arteriography, translumbar**
See Arteriography, technique
**Arteriosclerosis, therapy**
the role of pararenal collaterals in assessing renal artery stenosis before and after percutaneous transluminal angioplasty. Heeney, D.J., Bookstein, J.J., Carey, P.H., Rapoport, S., p. 71
**Atherosclerosis**
clinical correlates of the coronary arteriogram. Hamby, R.I., p. 124
**Azotemia**
embolization and angioplasty to relieve malignant hypertension and azotemia in a renal transplant patient. Russell, R.D., p. 307

## B

**Bacillus Calmette-Guerin (BCG), intraarterial**
experimental percutaneous renal embolization using BCG-saturated Gelfoam. Wright, K.C., Soo, C.-S., Wallace, S., McDonald, M.W., Ayala, A., p. 260
**Balloon catheter, Grüntzig**
See also Catheters and Catheterization
percutaneous transluminal dilatation for restoration of angioaccess in chronic hemodialysis patients. Probst, P., Mahler, F., Krneta, A., Descœudres, C., p. 257
**Basket technique**
See also Catheters and Catheterization
gall stone removal via a postoperative cholescystotomy catheter tract. LiPuma, J.P., Haaga, J.R., Haranath, B.S.S., p. 85
**Blood flow, coronary**
experimental myocardial ischemia II: radiographic contrast media toxicity. Serur, J.R., Als, A.V., Paulin, S., p. 211
**Blood flow, mesenteric**
nonocclusive intestinal ischemia treated with intraarterial infusion of prostaglandin $E_1$. Tyler, G., Clark, R.A., Jacobson, E.D., p. 16
**Bone, neoplasms**
computed tomography-guided removal of an osteoid osteoma: a case report. Levy, J.M., Hubbard, J.O., Crowe, J.K., p. 14
**Book reviews**
Donner, M.W., Heuck, F.H.W. (eds) radiology today – vol. 1; reviewed by Zeitler, E., p. 281
Ferrucci, J.T., Jr., Wittenberg, J., interventional radiology of the abdomen; reviewed by Casarella, W.J., p. 281
Lang, E. (ed) Koronare Herzkrankheit: Wertigkeit diagnostischer Verfahren und therapeutischer Maßnahmen; reviewed by Richter, E.-I., p.58
Lintermans, J.P., van Dorp, W.G., differential diagnosis in pediatric echocardiography; reviewed by Silverman, N.H., p. 58
Madsen, B. (ed) selective adrenal angiography: a study of adrenal and related arteries in normal and pathological conditions; reviewed by Zeitler, E., p. 119
May, R., Weber, J. (eds) pelvic and abdominal veins, progress in diagnostics and therapy; reviewed by Schmitt, H.E., p. 219
Pfisterer, M.E., Nuklearmedizinische Herzdiagnostik: Methodik, Diagnostik, Differentialdiagnose, Therapiekontrolle und Indikationen bei der koronaren Herzkrankheit; reviewed by Schad, N., p. 330
Stanley, P., Miller, J.H., pediatric angiography; reviewed by Fellows, K.H. p. 282
Widner, L.K., Stähelin, H.B., Nissen, C., da Silva, A., Venen, Arterien-Krankheiten, Koronare Herzkrankheit bei Berufstätigen; reviewed by Zeitler, E., p. 219
Widimsky, J. (ed) pulmonary embolism – vol. 13; reviewed by Olbert, F., p. 329
Zimmer, E.A., Zimmer-Brossy, M. (eds.) Lehrbuch der röntgendiagnostischen Einstelltechnik; reviewed by Wojtowycz, M., p. 329

## C

**Calcium ion**
experimental myocardial ischemia II: radiographic contrast media toxicity. Serur, J.R., Als, A.V., Paulin, S., p. 211
**Carcinoid tumor**
angiographic and computed tomographic appearance of secondary carcinoid of the liver. Sako, M., Lunderquist, A., Owman, T., Mårtensson, H., Nobin, A., p. 90
**Cardiac catheterization**
successful streptokinase treatment of a thrombosed, ectopic coronary artery: a case report. Als, A.V., Malagold, M., Markis, J.E., Paulin, S., p. 197
**Cardiac catheterization, complications**
See also Catheters and Catheterization, complications
how safe is the coronary angiogram? Adams, D.F., p. 168
**Cardiac complications**
See Cardiac catheterization, complications
**Cardiac computed tomography (CT)**
See also Computed tomography
computer graphic display of cardiac CT scans. Palmer, R., Yen, A., Kuo, I., Feinberg, D., Wiedenbeck, P., Perez-Mendez, V., Skiöldebrand, C.G., Carlsson, E., p. 97
**Cardiac imaging**
See also under individual modalities
imaging of the left ventricle in patients with ischemic heart disease: role of the contrast angiogram. Baltaxe, H.A., p. 137
**Cardiomyopathy**
clinical correlates of the coronary arteriogram, Hamby, R.I., p. 124
**Cast specimens, right ventricle**
investigation of human right ventricular cast specimens. Dübel, H.-P., Romaniuk, P., Tschapek, A., p. 296
**Catheters and catheterization**
gall stone removal via a postoperative cholescystotomy catheter tract. LiPuma, J.P., Haaga, J.R., Haranath, B.S.S., p. 85
new catheter for retrograde left heart catheterization in aortic stenosis. Purzycki, Z., p. 230
percutaneous transluminal coronary artery recanalization in evolving myocardial infarction. Rentrop, P., Blanke, H., p. 194
(technical note) prevention of a catheter fragment to the lower extremity by compression of the femoral artery. Gordon, D.H., Glanz, S., Sclafani, S.J.A., p. 117
**Catheters and catheterization, complications**
fatal atheromatous embolization during coronary angiography. Nicholson, M.R., Ferner, R.E., White, H., Ranasinghe, H., Julian, D.G., p. 174
how safe is the coronary angiogram? Adams, D.F., p. 168
percutaneous transluminal coronary angioplasty: analysis of unsuccessful procedures as a guide toward improved results. Baim, D.S., p. 186
percutaneous transluminal coronary artery recanalization in evolving myocardial infarction. Rentrop, P., Blanke, H., p. 194
transvascular retrieval of an accidentally ejected tip occluder and wire. Fjälling, M., List, A.R., p. 34
**Cavography**
the Kimray-Greenfield vena cava filter: a case of unusual misplacement. Allen, H.A., Cisternino, S.J., Ottesen, O.E., Queral, L., Dagher, F., p. 82
**Cineangiography, biplane**
investigation of human right ventricular cast specimens. Dübel, H.-P., Romaniuk, P., Tschapek, A., p. 296
**Coagulation**
coagulative interventions during angiography. Bookstein, J.J., Moser, K.M., Hougie, C., p. 46
**Coil embolization, complications**
coilon removal. Castaneda-Zuniga, Herrera, M., Rusnak, B., Amplatz, K., p. 69
**Collateral circulation**
functional alterations in the coronary circulation as mirrored in the angiogram. Paulin, S., p. 177
**Computed tomography (CT)**
angiographic and computed tomographic appearance of secondary carcinoid of the liver. Sako, M., Lunderquist, A., Owman, T., Mårtensson, H., Nobin, A., p. 90
computed tomography-guided percutaneous drainage of right upper abdominal abscesses. Kleinhaus, U., Rosenberger, A., p. 8
computed tomography-guided removal of an osteoid osteoma: a case report. Levy, J.M., Hubbard, J.O., Crowe, J.K., p. 14
evaluation of coronary bypass grafts. Torman, H.A., Levin, D.C., p. 160
massive nonfunctioning adrenal cortical adenoma: complementary roles of computed tomography (CT) and angiography in the diagnosis. Kuribayashi, S., Harrington, D.P., Peterson, L.M., p. 271
**CT, aortic dissection**
computed tomography versus aortography in diagnosis of aortic dissection. Parienty, R.A., Couffinhal, J.-C., Wellers, M., Farge, C., Pradel, J., Dologa, M., p. 285
**CT, chest**
benign superior vena cava syndrome caused by transvenous cardiac pacemaker. Cholankeril, J.V., Joshi, R.R., Ketyer, S., p. 40
**CT, heart**
See also Cardiac computed tomography
washout curves from myocardial infarctions in dogs, studied by contrast-enhanced computed tomography. Palmer, R.G., Masuda, Y., Carlsson, E., p. 221
**Computer graphic display**
computer graphic display of cardiac CT scans. Palmer, R., Yen, A., Kuo, I., Feinberg, D., Wiedenbeck, P., Perez-Mendez, V., Skiöldebrand, C.G., Carlsson, E., p. 97
**Congenital anomalies, aortic stenosis**
new catheter for retrograde left heart catheterization in aortic stenosis. Purzycki, Z., p. 227
**Congenital anomalies, vascular**
right aortic arch and isolation of the left innominate artery from the aorta. Garti, I.J., Aygen, M.M., p. 235
**Contrast ablation**
See also Embolization
embolization and angioplasty to relieve malignant hypertension and azotemia in a renal transplant patient. Russell, R.D., p. 307
**Contrast media, additives**
experimental studies in new liquid embolization mixtures (Histoacryl-Lipiodol, Histoacryl-Panthopaque). Stoesslein, F., Ditscherlein, G., Romaniuk, P.A., p. 264
**Contrast media, comparative studies**
Iopamidol, a new nonionic contrast medium in peripheral angiography. Kallehauge, H.E., Præstholm, J., p. 325
a survey of contrast media used in coronary angiography. Weikl, A., Hubmann, M., p. 202
**Contrast media, effects**
See Contrast media, comparative studies

**Contrast media, water soluble**
Iopamidol, a new nonionic contrast medium in peripheral angiography. Kallehauge, H.E., Præstholm, J., p. 325
a survey of contrast media used in coronary angiography. Weikl, A., Hubmann, M., p. 202
**Contrast medium, transport studies**
washout curves from myocardial infarctions in dogs, studied by contrast-enhanced computed tomography. Palmer, R.G., Masuda, Y., Carlsson, E., p. 221
**Coronary angiography**
See also Coronary arteriography
evaluation of coronary bypass grafts. Torman, H.A., Levin, D.C., p. 160
functional alterations in the coronary circulation as mirrored in the angiogram. Paulin, S., p. 177
new technical trends in coronary laboratories. Zeitler, E., Richter, E.-I., Seyferth, W., p. 145
three-dimensional teaching model for coronary angiography. Coleman, C., Castaneda-Zuniga, W.R., Amplatz, K., p. 154
**Coronary angiography, complications**
fatal atheromatous embolization during coronary angiography. Nicholson, M.R., Ferner, R.E., White, H., Ranasinghe, H., Julian, D.G., p. 174
how safe is the coronary angiogram? Adams, D.F., p. 168
**Coronary angioplasty, complications**
See also Coronary angiography, complications; and Percutaneous transluminal angioplasty
percutaneous transluminal coronary angioplasty: analysis of unsuccessful procedures as a guide toward improved results. Baim, D.S., p. 186
**Coronary arteries**
See Arteries, coronary
**Coronary arteries, model**
three-dimensional teaching model for coronary angiography, Coleman, C., Castaneda-Zuniga, W.R., Amplatz, K., p. 154
**Coronary arteriography**
See also Coronary angiography
clinical correlates of the coronary arteriogram. Hamby, R.I., p. 124
experimental myocardial ischemia II: radiographic contrast media toxicity. Serur, J.R., Als, A.V., Paulin, S., p. 211
functional alterations in the coronary circulation as mirrored in the angiogram. Paulin, S., p. 177
imaging of the left ventricle in patients with ischemic heart disease: role of the contrast angiogram. Baltaxe, H.A., p. 137
introductory comments [to Special Issue]. Paulin, S., p. 121
successful streptokinase treatment of a thrombosed, ectopic coronary artery: a case report. Als, A.V., Malagold, M., Markis, J.E., Paulin, S., p. 197
three-dimensional teaching model for coronary angiography, Coleman, C., Castaneda-Zuniga, W.R., Amplatz, K., p. 154
translumbar selective coronary arteriography. Maxwell, D.D., March, H.B., Mispireta, L.A., p. 157
**Coronary arteriography, complications**
See Coronary angiography, complications
**Coronary artery bypass grafts**
evaluation of coronary bypass grafts. Torman, H.A., Levin, D.C., p. 160
**Coronary artery calcification**
clinical correlates of the coronary arteriogram. Hamby, R.I., p. 124
**Coronary artery disease (CAD)**
clinical correlates of the coronary arteriogram. Hamby, R.I., p. 124
experimental myocardial ischemia II: radiographic contrast media toxicity. Serur, J.R., Als, A.V., Paulin, S., p. 211
**CAD, left main**
See Coronary artery calcification
**CAD, risk factors**
clinical correlates of the coronary arteriogram. Hamby, R.I., p. 124
**Coronary heart disease**
Koronare Herzkrankheit: Wertigkeit diagnostischer Verfahren und therapeutischer Maßnahmen. Lang, E. (ed); reviewed by Richter, E.-I., p. 58
**Coronary laboratory**
new technical trends in coronary laboratories. Zeitler, E., Richter, E.-I., Seyferth, W., p. 145
**Coronary reperfusion**
functional alterations in the coronary circulation as mirrored in the angiogram. Paulin, S., p. 177
successful streptokinase treatment of a thrombosed, ectopic coronary artery: a case report. Als, A.V., Malagold, M., Markis, J.E., Paulin, S., p. 197
**Coronary thrombosis**
functional alterations in the coronary circulation as mirrored in the angiogram. Paulin, S., p. 177
**Cyanoacrylates, experimental studies**
experimental studies on new liquid embolization mixtures (Histoacryl-Lipiodol, Histoacryl-Panthopaque). Stoesslein, F., Ditscherlein, G., Romaniuk, P.A., p. 264

## D

**Diagnostic imaging**
Reflections on RSNA 1981 [editorial]. Zeitler, E., Abrams, H.L., Sos, T.A., Harrington, D.P., p. 57
**Diatrizoate contrast agents**
Iopamidol, a new nonionic contrast medium in peripheral angiography. Kallehauge, H.E., Præstholm, J., p. 325
**Digital subtraction angiography (DSA)**
imaging of the left ventricle in patients with ischemic heart disease: role of the contrast angiogram. Baltaxe, H.A., p. 137
**Drainage, percutaneous**
computed tomography-guided percutaneous drainage of right upper abdominal abscesses. Kleinhaus, U., Rosenberger, A., p. 8
**Ductus arteriosus**
angiographic evaluation of the ductus diverticulum. Goodman, P.C., Jeffrey, R.B., Minagi, H., Federle, M.P., Thomas, A.N., p. 1
**Ductus diverticulum**
See Ductus arteriosus

## E

**Echocardiography**
coronary artery to left ventricle fistulas: echocardiographic features. Chen, W., Woo, K.S., Kong, S.M., Mok, C.K., p. 241
differential diagnosis in pediatric echocardiography. Lintermans, J.P., van Dorp. W.G.; reviewed by Silverman, N.H., p. 58
imaging of the left ventricle in patients with ischemic heart disease: role of the contrast angiogram. Baltaxe, H.A., p. 137
**Ejection fraction**
new technical trends in coronary laboratories. Zeitler, E., Richter, E.-I., Seyferth, W., p. 145

**Embolism, cerebral**
how safe is the coronary angiogram? Adams, D.F., p. 168
**Embolism, pulmonary**
See also Pulmonary embolism
the Kimray-Greenfield vena cava filter: a case of unusual misplacement. Allen, H.A., Cisternino, S.J., Ottesen, O.E., Queral, L., Dagher, F., p. 82
peripheral venous aneurysms with recurrent pulmonary embolism: report of a case and review of the literature. Greenwood, L.H., Yrizarry, J.M., Hallett, J.W., Jr., p. 43
pulmonary arteriography: the importance of multiple projections. Bossart, P.J., Sniderman, K.W., Beinart, C., Saddekni, S., Sos, T.A., p. 105
**Embolization, bleeding control**
traumatic anterior mediastinal hemorrhage: control by internal mammary artery embolization. Husted, J.W., Stock, J.R., Manella, W.J., p. 268
**Embolization, extremities**
(technical note) prevention of embolization of a catheter fragment to the lower extremity by compression of the femoral artery. Gordon, D.H., Glanz, S., Sclafani, S.J.A., p. 117
**Embolization, splenic**
embolization of bleeding transverse pancreatic artery aneurysms. Knight, R.W., Kadir, S., White, R.I., Jr., p. 37
**Embolization, therapeutic**
embolization and angioplasty to relieve malignant hypertension and azotemia in a renal transplant patient. Russell, R.D., p. 307
localization of Gelfoam emboli after partial splenic embolization utilizing $^{99m}$Tc-labeled emboli. Berger, J.L., Gerlock, A.J., Jr., Clanton, J.A., MacDonell, R.C., Jr., Parris, W.C.V., Kendall, R.I., p. 20
**Enteric alimentation**
applications and techniques of gastrointestinal intubation. McLean, G.K., Ring, E.J., Freiman, D.B., p. 108

## F

**Femoral puncture**
new catheter for retrograde left heart catheterization in aortic stenosis. Purzycki, Z., p. 230
**Fiberoptic bronchoscopy, versus sputum cytology**
percutaneous lung biopsy: experiences during the first 54 biopsies. Coleman, R., Driver, M., Gishen, P., p. 61
**Fibrinolysis**
coagulative interventions during angiography. Bookstein, J.J., Moser, K.M., Hougie, C., p. 46
**Fibromuscular dysplasia**
percutaneous transluminal angioplasty of fibromuscular dysplasia of the internal carotid artery. Belān, A., Veselá, M., Vaněk, I., Weiss, K., Peregrin, J.H., p. 79
**Filters, vena caval**
the Kimray-Greenfield vena cava filter: a case of unusual misplacement. Allen, H.A., Cisternino, S.J., Ottesen, O.E., Queral, L., Dagher, F., p. 82
**Fistula/Fistulas, atrial**
angiographic diagnosis of aorto-right atrial fistula from acute dissecting aneurysm of the ascending aorta. Taylor, J.L., Elliott, L.P., Karp, R.B., Kraft, L., p. 5
**Fistula/Fistulas, coronary artery**
coronary artery to left ventricle fisulas: echocardiographic features. Chen, W., Woo, K.S., Kong, S.M., Mok, C.K., p. 241
**Foreign body extraction**
See also Foreign body retrieval and Percutaneous retrieval
coilon removal. Castaneda-Zuniga, W.R., Herrera, M., Rusnak, B., Amplatz, K., p. 69
**Foreign body retrieval**
transvascular retrieval of an accidentally ejected tip occluder and wire. Fjälling, M., List, A.R., p. 34
**Foreign body retrieval, intravascular**
percutaneous removal of intravascular foreign bodies. Rubinstein, Z.J., Morag, B., Itzchak, Y., p. 64

## G

**Gallbladder, calculi**
gall stone removal via a postoperative cholecystotomy catheter tract. LiPuma, J.P., Haaga, J.R., Haranath, B.S.S., p. 85
**Gastrointestinal intubation**
applications and techniques of gastrointestinal intubation. McLean, G.K., Ring, E.J., Freiman, D.B., p. 108
**Gelfoam embolization**
See also Embolization, therapeutic
localization of Gelfoam emboli after partial splenic embolization utilizing $^{99m}$Tc-labeled emboli. Berger, J.L., Gerlock, A.J., Jr., Clanton, J.A., MacDonell, Jr., Parris, W.C.V., Kendall, R.I., p. 20
**Glucagonoma**
glucagonoma and its angiographic diagnosis. Wawrukiewicz, A.S., Rösch, J., Keller, F.S., Lieberman, D.A., p. 318
**Glucogonoma syndrome**
See Glucagonoma

## H

**Heart, abnormalities**
See Congenital anomalies, heart disease
**Heart, computed tomography**
See Computed tomography, heart
**Heart failure, congestive**
clinical correlates of the coronary arteriogram. Hamby, R.I., p. 124
**Heart, transvenous pacemaker**
benign superior vena cava syndrome caused by transvenous cardiac pacemaker. Cholankeril, J.V., Joshi, R.R., Ketyer, S., p. 40
**Heart, ultrasound studies**
See Echocardiography
**Heart, volume measurement**
investigation of human right ventricular cast specimens. Dübel, H.-P., Romaniuk, P., Tschapek, A., p. 296
**Hemodynamic measurements**
new technical trends in coronary laboratories. Zeitler, E., Richter, E.-I., Seyferth, W., p. 145
**Hemorrhage**
See under organ or system
**Hodgkin's disease**
upper extremity lymphangiography as an aid to treatment planning for stage 1A epitrochlear Hodgkin's disease. Meyer, J.E., Halperin, E.C., Linggood, R.M., p. 279
**Hypertension**
embolization and angioplasty to relieve malignant hypertension and azotemia in a renal transplant patient. Russell, R.D., p. 307
**Hypertension, renovascular**
See also Renovascular hypertension
the role of pararenal collaterals in assessing renal artery stenosis before and after percutaneous transluminal angioplasty. Heeney, D.J., Bookstein, J.J., Carey, P.H., Rapoport, S., p. 71
**Hypovascularity**
leiomyosarcoma of the kidney: report of two cases with common angiographic findings. Selli, C., Stefani, P., Carcangiu, M.L., Turini, D., p. 275

## I

**Iatrogenic complication**
(technical note) prevention of embolization of a catheter fragment to the lower extremity by compression of the femoral artery. Gordon, D.H., Glanz, S., Sclafani, S.J.A., p. 117
**Image intensifier, high-resolution**
new technical trends in coronary laboratories. Zeitler, E., Richter, E.-I., Seyferth, W., p. 145
**Inferior vena cava**
See also Vena cava/Vena cavae, inferior
unusual manifestations of aortic dissection. Glanz, S., Gordon, D.H., Shah, N., Jaffe, B., Griepp, R., p. 292
**Inotropic effects of contrast media**
See also Contrast media, effects
experimental myocardial ischemia II: radiographic contrast media toxicity. Serur, J.R., Als, A.V., Paulin, S., p. 211
a survey of contrast media used in coronary angiography. Weikl, A., Hubmann, M., p. 202
**Internal carotid artery, stenosis**
percutaneous transluminal angioplasty of fibromuscular dyplasia of the internal carotid artery. Belán, A., Veselá, M., Vaněk, I., Weiss, K., Peregrin, J.H., p. 79
**Internal mammary artery, embolization**
See also Embolization, therapeutic
traumatic anterior mediastinal hemorrhage: control by internal mammary artery embolization. Husted, J.W., Stock, J.R., Manella, W.J., p. 268
**Interventional radiology**
See also Catheters and catheterization; Embolization, therapeutic; Foreign body extraction; Foreign body retrieval; and Percutaneous transluminal angioplasty
angiographic control of renal artery stenosis 6 months following percutaneous transluminal angioplasty. Ingrisch, H., Hegele, T., Frey, K.W., p. 249
percutaneous transluminal coronary artery recanalization in evolving myocardial infarction. Rentrop, P., Blanke, H., p. 194
**Interventional radiology, abdomen**
interventional radiology of the abdomen. Ferrucci, J.T., Jr., Wittenberg, J.; reviewed by Casarella, W.J., p. 281
**Intestinal decompression**
applications and techniques of gastrointestinal intubation. McLean, G.K., Ring, E.J., Freiman, D.B., p. 108
**Intestinal ischemia, nonocclusive**
nonocclusive intestinal ischemia treated with intraarterial infusion of prostaglandin $E_1$. Tyler, G., Clark, R.A., Jacobson, E.D., p. 16
**Intimal tear**
transvascular retrieval of an accidentally ejected tip occluder and wire. Fjälling, M., List, A.R., p. 34
**Ionic contrast media**
a survey of contrast media used in coronary angiography. Weikl, A., Hubmann, M., p. 202
**Iopamidol**
See also Contrast media, comparative studies
Iopamidol, a new nonionic contrast medium in peripheral angiography. Kallehauge, H.E., Præstholm, J., p. 325
**Ischemia**
See also Myocardial ischemia
experimental myocardial ischemia II: radiographic contrast media toxicity. Serur, J.R., Als, A.V., Paulin, S., p. 211
successful streptokinase treatment of a thrombosed, ectopic coronary artery: a case report. Als, A.V., Malagold, M., Markis, J.E., Paulin, S., p. 197
**Islet cell tumor**
glucagonoma and its angiographic diagnosis. Wawrukiewicz, A.S., Rösch, J., Keller, F.S., Lieberman, D.A., p. 318

## K

**Kidney/Kidneys**
See under Renal
**Kidney/Kidneys, experimental arterial embolization**
See also Bacillus Calmette-Guerin
experimental percutaneous renal embolization using BCG-saturated Gelfoam. Wright, K.C., Soo, C.-S., Wallace, S., McDonald, M.W., Ayala, A., p. 260
**Kimray-Greenfield filter**
See also Filters, vena caval
the Kimray-Greenfield vena cava filter: a case of unusual misplacement. Allen, H.A., Cisternino, S.J., Ottesen, O.E., Queral, L., Dagher, F., p. 82

## L

**Leiomyosarcoma, renal**
leiomyosarcoma of the kidney: report of two cases with common angiographic findings. Selli, C., Stefani, P., Carcangiu, M.L., Turini, D., p. 275
**Liver, metastases**
angiographic and computed tomographic appearance of secondary carcinoid of the liver. Sako, M., Lunderquist, A., Owman, T., Mårtensson, H., Nobin, A., p. 90
**Lymphangiography, upper extremity**
upper extremity lymphangiography as an aid to treatment planning for stage 1A epitrochlear Hodgkin's disease. Meyer, J.E., Halperin, E.C., Linggood, R.M., p. 279

## M

**Mediastinal hemorrhage**
traumatic anterior mediastinal hemorrhage: control by internal mammary artery embolization. Husted, J.W., Stock, J.R., Manella, W.J., p. 268
**Mitral valve, disease**
coronary artery to left ventricle fistulas: echocardiographic features. Chen, W., Woo, K.S., Kong, S.M., Mok, C.K., p. 241
**Multiple gaited acquisition (MUGA)**
imaging of the left ventricle in patients with ischemic heart disease: role of the contrast angiogram. Baltaxe, H.A., p. 137
**Myocardial infarction**
clinical correlates of the coronary arteriogram. Hamby, R.I., p. 124
how safe is the coronary angiogram? Adams, D.F., p. 168
washout curves from myocardial infarctions in dogs, studied by contrast-enhanced computed tomography. Palmer, R.G., Masuda, Y., Carlsson, E., p. 221
**Myocardial infarction, acute**
functional alterations in the coronary circulation as mirrored in the angiogram. Paulin, S., p. 177
**Myocardial infarction, experimental**
computer graphic display of cardiac CT scans. Palmer, R., Yen, A., Kuo, I., Feinberg, D., Wiedenbeck, P., Perez-Mendez, V., Skiöldebrand, C.G., Carlsson, E., p. 97
**Myocardial ischemia**
See also Ischemia
functional alterations in the coronary circulation as mirrored in the angiogram. Paulin, S., p. 177
**Myocardium, contractile force**
experimental myocardial ischemia II: radiographic contrast media toxicity. Serur, J.R., Als, A.V., Paulin, S., p. 211

## N

**National Institutes of Health (NIH) catheter**
See also Catheters and catheterization
new catheter for retrograde left heart catheterization in aortic stenosis. Purzycki, Z., p. 230
**Neoplasm/Neoplasms**
See under names of individual organs
**Nonionic contrast media**
Iopamidol, a new nonionic contrast medium in peripheral angiography. Kallehauge, H.E., Præstholm, J., p. 325
**Nuclear medicine, cardiac**
See also Radionuclide imaging
Nuklearmedizinische Herzdiagnostik: Methodik, Diagnostik, Differentialdiagnose, Therapiekontrolle und Indikationen bei der koronaren Herzkrankheit. Pfisterer, M.E.; reviewed by Schad, N., p. 330

## O

**Occlusive techniques**
See Contrast ablation and Embolization, therapeutic
**Osmolality of contrast media**
Iopamidol, a new nonionic contrast medium in peripheral angiography, Kallehauge, H.E., Præstholm, J., p. 325
a survey of contrast media used in coronary angiography. Weikl, A., Hubmann, M., p. 202
**Osteoid osteoma**
computed tomography-guided removal of an osteoid osteoma: a case report. Levy, J.M., Hubbard, J.O., Crowe, J.K., p. 14

## P

**Pancreas, neoplasms**
glucagonoma and its angiographic diagnosis. Wawrukiewicz, A.S., Rösch, J., Keller, F.S., Lieberman, D.A., p. 318
**Paramediastinal masses**
dilated pulmonary venous confluence presenting as a mass in mitral stenosis. Lautin, R., Ledor, S., Ledor, K., Barek, L., p. 304
**Percutaneous dilatation**
See also Percutaneous transluminal angioplasty
percutaneous transluminal dilatation for restoration of angioaccess in chronic hemodialysis patients. Probst, P., Mahler, F., Krneta, A., Descœudres, C., p. 257
**Percutaneous lung biopsy, technique, results, complications**
percutaneous lung biopsy: experiences during the first 54 biopsies. Coleman, R., Driver, M., Gishen, P., p. 61
**Percutaneous removal of stones**
See also Catheters and catheterization
gall stone removal via a postoperative cholecystomy catheter tract. LiPuma, J.P., Haaga, J.R., Haranath, B.S.S., p. 85
**Percutaneous retrieval**
See also Foreign body extraction and Foreign body retrieval
coilon removal. Castaneda-Zuniga, W.R., Herrera, M., Rusnak, B., Amplatz, K., p. 69
percutaneous removal of intravascular foreign bodies. Rubinstein, Z.J., Morag, B., Itzchak, Y., p. 64
**Percutaneous transluminal angioplasty**
angiographic control of renal artery stenoses 6 months following percutaneous transluminal angioplasty. Ingrisch, H., Hegele, T., Frey, K.W., p. 249
a case report of percutaneous transluminal angioplasty following failure of femoro-popliteal venous bypass graft. Baxi, R.K., p. 30
percutaneous transluminal angioplasty of fibromuscular dysplasia of the internal carotid artery. Belán, A., Veselá, M., Vaněk, I., Weiss, K., Peregrin, J.H., p. 79
percutaneous transluminal coronary angioplasty: analysis of unsuccessful procedures as a guide toward improved results. Baim, D.S., p. 186
the role of pararenal collaterals in assessing renal artery stenosis before and after percutaneous transluminal angioplasty. Heeney, D.J., Bookstein, J.J., Carey, P.H., Rapoport, S., p. 71
**Percutaneous transluminal coronary artery recanalization**
percutaneous transluminal coronary artery recanalization in evolving myocardial infarction. Rentrop, P., Blanke, H., p. 194
**Phlebography**
See Venography
**Platelets**
coagulative interventions during angiography. Bookstein, J.J., Moser, K.M., Hougie, C., p. 46
**Popliteal arteries**
See Arteries, popliteal
**Portal hypertension**
See Hypertension
**Prostaglandin $E_1$**
nonocclusive intestinal ischemia treated with intraarterial infusion of prostaglandin $E_1$. Tyler, G., Clark, R.A., Jacobson, E.D., p. 16
**Pseudoaneurysm/Pseudoaneurysms**
See also Aneurysm/Aneurysms
angiographic evaluation of the ductus diverticulum. Goodman, P.C., Jeffrey, R.B., Minagi, H., Federle, M.P., Thomas, A.N., p. 1
**Pseudotumor, pulmonary**
dilated pulmonary venous confluence presenting as a mass in mitral stenosis. Lautin, R., Ledor, S., Ledor, K., Barek, L., p. 304
**Pulmonary arteries, obstruction**
pulmonary arteriography: the importance of multiple projections. Bossart, P.J., Sniderman, K.W., Beinart, C., Saddekni, S., Sos, T.A., p. 105
**Pulmonary embolectomy**
See Pulmonary embolism
**Pulmonary embolism**
See also Embolism, pulmonary
the Kimray-Greenfield vena cava filter: a case of unusual misplacement. Allen, H.A., Cisternino, S.J., Ottesen, O.E., Queral, L., Dagher, F., p. 82
peripheral venous aneurysms with recurrent pulmonary embolism: report of a case and review of the literature. Greenwood, L.H., Yrizarry, J.M., Hallett, J.W., Jr., p. 43
pulmonary arteriography: the importance of multiple projections. Bossart, P.J., Sniderman, K.W., Beinart, C., Saddekni, S., Sos, T.A., p. 105
pulmonary embolism, vol. 13. Widimsky, J. (ed.); reviewed by Olbert, F., p. 329
**Pulmonary hypoplasia**
bronchial arteries to right pulmonary artery anastomoses in right pulmonary vein atresia. Johnson, J.F., Juris, A.L., Barnes, E.V., p. 238
**Pulmonary pseudotumor**
See Pseudotumor, pulmonary
**Pulmonary vein atresia**
See Pulmonary hypoplasia
**Pulmonary veins, dilated**
dilated pulmonary venous confluence presenting as a mass in mitral stenosis. Lautin, R., Ledor, S., Ledor, K., Barek, L., p. 304

## Q

**Quantitative and three-dimensional display**
computer graphic display of cardiac CT scans. Palmer, R., Yen, A., Kuo, I., Feinberg, D., Wiedenbeck, P., Perez-Mendez, V., Skiöldebrand, C.G., Carlsson, E., p. 97

## R

**Radiological Society of North America (RSNA)**
reflections on RSNA 1981 [editorial comments]. Zeitler, E., Abrams, H.L., Sos, T.A., Harrington, D.P., p. 57
**Radiology and radiologists**

## S

**Spillover technique**
nonocclusive intestinal ischemia treated with intraarterial infusion of prostaglandin $E_1$. Tyler, G., Clark, R.A., Jacobson, E.D., p. 16
**Spleen, embolization**
See Embolization, splenic
**Spleen, partial embolization**
localization of Gelfoam emboli after partial splenic embolization utilizing $^{99m}$Tc-labeled emboli. Berger, J.L., Gerlock, A.J., Jr., Clanton, J.A., MacDonell, R.C., Jr., Parris, W.C.V., Kendall, R.I., p. 20
**Stenosis, nonatherosclerotic**
percutaneous transluminal dilatation for restoration of angioaccess in chronic hemodialysis patients. Probst, P., Mahler, F., Krneta, A., Descœudres, C., p. 257
**Streptokinase infusion**
successful streptokinase treatment of a thrombosed, ectopic coronary artery: a case report. Als, A.V., Malagold, M., Markis, J.E., Paulin, S., p. 197
**Streptokinase infusion, intracoronary**
percutaneous transluminal coronary artery recanalization in evolving myocardial infarction. Rentrop, P., Blanke, H., p. 194
**Stress testing**
clinical correlates of the coronary arteriogram. Hamby, R.I., p. 124
**Subclavian steal**
right aortic arch and isolation of the left innominate artery from the aorta. Garti, I.J., Aygen, M.M., p. 235
**Superior vena cava/Superior vena cavae, catheterization**
benign superior vena cava syndrome caused by transvenous cardiac pacemaker. Cholankeril, J.V., Joshi, R.R., Ketyer, S., p. 40
**Superior vena cava/Superior vena cavae, thrombosis**
See Superior vena cava/Superior vena cavae, catheterization
**Superior vena cava syndrome**
benign superior vena cava syndrome caused by transvenous cardiac pacemaker. Cholankeril, J.V., Joshi, R.R., Ketyer, S., p. 40

## T

**Technetium-99m**
See Gelfoam embolization
**Therapeutic embolization**
See Embolization, therapeutic
**Thrombosis, catheter-induced**
fatal atheromatous embolization during coronary angiography. Nicholson, M.R., Ferner, R.E., White, H., Ranasinghe, H., Julian, D.G., p. 174
**Thrombosis, coronary**
functional alterations in the coronary circulation as mirrored in the angiogram. Paulin, S., p. 177
**Transcatheter embolization**
See also Embolization, therapeutic
embolization of bleeding transverse pancreatic artery aneurysms. Knight, R.W., Kadir, S., White, R.I., Jr., p. 37
**Tumor neovascularity**
leiomyosarcoma of the kidney: report of two cases with common angiographic findings. Selli, C., Stefani, P., Carcangiu, M.L., Turini, D., p. 275

## V

**Varices, pulmonary**
dilated pulmonary venous confluence presenting as a mass in mitral stenosis. Lautin, R., Ledor, S., Ledor, K., Barek, L., p. 304

**Varicosity, pulmonary**
See Varices, pulmonary
**Vascular disease, prospective studies**
Venen, Arterien-Krankheiten, koronare Herzkrankheit bei Berufstätigen. Widmer, L.K., Stähelin, H.B. (eds); reviewed by Zeitler, E., p. 219
**Veins, abdominal and pelvic**
pelvic and abdominal veins; progress in diagnostics and therapy. May, R., Weber, J., (eds); reviewed by Schmitt, H.E., p. 219
**Veins, occlusion**
See Venous occlusion
**Veins, pulmonary**
See Pulmonary veins, dilated
**Vena cava/Vena cavae, inferior**
pseudo-obstruction of the inferior vena cava in pediatric abdominal masses. Kadir, S., O'Neill, J.A., Jr., p. 25
unusual manifestations of aortic dissection. Glanz, S., Gordon, D.H., Shah, N., Jaffe, B., Griepp, R., p. 292
**Vena cava/Vena cavae, superior**
See Superior vena cava/Superior vena cavae, catheterization; and Superior vena cava/Superior vena cavae, thrombosis
**Venography**
percutaneous removal of intravascular foreign bodies. Rubinstein, Z.J., Morag, B., Itzchak, Y., p. 64
peripheral venous aneurysms with recurrent pulmonary embolism: report of a case and review of the literature. Greenwood, L.H., Yrizarry, J.M., Hallett, J.W., Jr., p. 43
pseudo-obstruction of the inferior vena cava in pediatric abdominal masses. Kadir, S., O'Neill, J.A., Jr., p. 25
**Venous aneurysms**
See Aneurysm/Aneurysms, venous
**Venous lakes**
leiomyosarcoma of the kidney: report of two cases with common angiographic findings. Selli, C., Stefani, P., Carcangiu, M.L., Turini, D., p. 275
**Ventriculography**
new catheter for retrograde left heart catheterization in aortic stenosis. Purzycki, Z., p. 230
**Ventriculography, isotope**
See also Nuclear medicine, cardiac; and Radionuclide imaging
imaging of the left ventricle in patients with ischemic heart disease: role of the contrast angiogram. Baltaxe, H.A., p. 137
**Ventriculography, left**
See Ventriculography, isotope

## W

**Washout curves**
washout curves from myocardial infarctions in dogs, studied by contrast-enhanced computed tomography. Palmer, R.G., Masuda, Y., Carlsson, E., p. 221
